

Recent research seems to confirm what dog owners have known all along — that dogs in the workplace can lower stress and absenteeism while increasing employee productivity. The benefits of having dogs at work have become so widespread that about 1.4 million American dog owners take some 2.3 million dogs to work every day, according to an American Pet Products Association survey.

Bring Your Dog to Work

There is an actual Take Your Dog to Work Day yearly in June, but we at Victoria Manor agree that there are great benefits to having your dog at work every day. For the many benefits having your dog at work can provide we are creating a Bring Your Dog to Work Program. If you'd like to bring your dog to work, be our guest. It isn't as easy for some staff to do this as it is for others, but if you can find a way to accommodate your dog while working, we'll be glad to see them.
